PROFIL

Computer Science student with commercial experience and an active Linux Kernel contributor. I specialize in HID protocols and solving concurrency and memory safety issues.

EXPERIENCE

- | | |
|---------------------|---|
| 11.2025–
Present | Linux Kernel, Remote
Analysis and improvement of kernel stability in the area of file systems (ocfs2, f2fs, ntfs3, jfs). <ul style="list-style-type: none">• Identification and patching of vulnerabilities (Use-After-Free, Slab-out-of-bounds) and concurrency bugs.• Direct upstreaming of code patches to stable branches in collaboration with kernel maintainers (syzbot reports). |
| 10.2025–
Present | Software Architect, FAMUR, Zabrze
Developing MES software for the mining sector. <ul style="list-style-type: none">• Digitalization of industrial processes and optimization of data flow management (PHP, SQL). |
| 01.2024–
01.2026 | Full-stack Developer, Freelance, Remote
Designing and implementing dedicated web applications. <ul style="list-style-type: none">• Full software development lifecycle: architecture, backend/frontend implementation, and deployment on Linux servers. |

EDUCATION

- | | |
|---------------------|--|
| 10.2023–
Obecnie | Computer Science (B.Sc. Engineering), Silesian University of Technology, Gliwice
7th semester. Core areas: software engineering, operating system architectures, algorithms. |
|---------------------|--|

SKILLS

- | | |
|--------------|--|
| Programming | C, TypeScript, JavaScript, PHP, SQL |
| Technologies | Linux, React.js, Git, REST API |
| Practices | Kernel hardening, memory safety, technical documentation |
| Languages | English – Advanced, Polish – Native |

CERTIFICATIONS

- | | |
|---------|--|
| 10.2025 | Accessible Technology Design, AccessibleEU (European Commission)
Accessible software design (a11y) and European digital inclusivity standards. |
| 11.2021 | Data Analytics Professional, Google (Coursera)
SQL, R, data visualization (Tableau). |
| 11.2021 | IT Support Professional, Google (Coursera)
Computer networks, Linux/Windows administration, IT security. |

INTERESTS

Open Source, Low-level systems, 3D graphics, and interactive visualizations
